### DESCRIPTION

It is said that once, long before the birds and the bees, there was the Banana and the Bee. The rowdy Banana came from the wrong side of the tracks, so it was instantly a scandalous relationship. Things were hot for a while, practically a flambé. Their love didn't last long, though, as it was steeped in good times and a heavy dose of a certain Caribbean libation. After the flames settled they decided it would be best to stay BFF's.

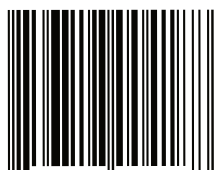

2017 Silver Medal Winner at the Mazer Cup International Mead Competition.
