ABV

DESCRIPTION

Conflict was inevitable between the peanuts and the grapes. The grapes had become, without reason, more intelligent. They began using tools, such as a butter knife, which spread fear among the peanuts. Complicated tasks such as unscrewing a lid or using a twist tie on a loaf of bread were everyday occurrences. Would war arise or would they all learn to get along, coexist and possibly stick together one day? Time would tell...

MODERN MEAD. MADE FOR EVERYONE.
